

BioProtect

SEPTIC TREATMENT

ELIMINATE FOUL SURFACE WATER AND
ODOURS FROM SEPTIC SYSTEMS

PREVENT BUILD UP & BLOCKAGES

NON-TOXIC FORMULA

PRODUCT OVERVIEW

BioProtect's patented formula harnesses the power of Surfactin and a unique combination of bacterium, lipid peptides and other bio-actives to eliminate odours, organic material, solids and surface water in septic systems that aren't functioning properly, without pouring harsh chemicals down the drain!

PRODUCT BENEFITS

The patented bio-cleaning technology eliminates blockages and odours but also creates the correct probiotic environment for your septic system to function properly. Being a non-toxic, non-corrosive treatment, it is safe, easy to use, will reduce costly plumbing issues and won't damage your pipes.

WHERE TO USE

Created specifically for use in the following areas:

- Septic Systems
- Urinals (including waterless systems)
- Bathroom Drains
- Toilets
- Basins

TECHNICAL SPECIFICATIONS

COLOUR: LIGHT TAN

pH: 5.5>6.5

Owned

HOW TO DILUTE

Do not dilute.

DIRECTIONS FOR USE

- Dose septic system every 3 months by pouring 1L directly into toilet or sink.
- For best results, distribute the dose evenly among all drains that feed into the septic system (toilets, sinks, basins, showers & bath)

SAFETY & PPE

PPE: Safety glasses and gloves may be worn.

Safety: Always take care when handling any chemicals. Refer to the SDS for additional Information.
